113.11.21 (Thu)

10 : 30 ~ 12 : 30

Google Meeting

Registration deadline :

2024/11/12(Tue.)

Join Dr. Terrence Chong for an engaging and insightful 1.5-hour workshop. This workshop focuses on the innovative use of technology and generative AI to enhance teaching and learning experiences for postgraduate students, particularly those from non-English speaking backgrounds.

Participants will explore practical strategies for integrating technology and generative AI into their teaching practices to boost student engagement and improve teaching effectiveness.

Dr. Chong will share his extensive experience and valuable insights from his teaching career at the University of New South Wales, Australia. Attendees will leave with actionable tips and techniques to transform their teaching methods and better support their diverse student populations.
